

The Crittenden Press

Volume 43

Marion, Crittenden County, Kentucky, Friday, March 4, 1921

No. 43

The Press stand for those things that are for the betterment of Marion and Crittenden County.
The business of the Press is to build.
The Press believes in the childhood of Marion and Crittenden County.
The Press believe that our own boys and girls are entitled to the best to be had.

IS THE PRESS FOR THE BOND ISSUE?
YES! YES! YES!!

ISAAC M. DILLARD RECENT BUILDING OPERATIONS

World War Veteran and Teacher of
the County Announces His
Tax Commissioner

Nowhere on the face of the Earth
exists the manhood of Mr.
M. Dillard of the Dillard
Construction Company, of Marion,
Ky., who has worked so
hard to make Marion a
better place to live in.

There have been several new
houses built in Marion in the past few
months. A. L. Dillard has put up
a house on North Main Street.

He is the son of the man
who has done so much for the
construction of Crittenden County.

He is the author of the
Dillard Construction
Company, which has
done a great deal of work
in Marion and Crittenden
County.

He is well and friendly
with many of the
people of Marion and
Crittenden County.

He is well known to
many of the people of
Marion and Crittenden
County.

He is well known to
many of the people of
Marion and Crittenden
County.

He is well known to

Marion and Crittenden
County.

He is well known to
many of the people of
Marion and Crittenden
County.

HOW TO VOTE STAND ON THE SCHOOL BONDS?

Numbers of people are honestly
trying to get right on the bond issue.
They are seeing the merit of the
case and are casting their vote and
then influence for the school, realizing
that the school in Marion has
always been her greatest asset.

To get exactly straight about this
little "Bond Issue History" is not
easy.

In 1916 there was a bond issue vot-
ed to build a new high school build-
ing, jointly with the county. The
issue was \$10,000. \$2,500 of the
bonds were issued and the money
used in buying, with the County
Board, the plot of ground on which
to erect a new building, and to do some
necessary repair work. \$7,500 of
these bonds have never been
issued and will not be issued. What
the bond issue was voted in 1916
there were outstanding bonds of a
previous issue. Which makes a total
outstanding \$7,500. If the amount
the Board of Education for the city
of Marion and district has enough
fund on hand as sinking fund to re-
duce the outstanding bonds to \$6,000
as stated in the call for election.

Regardless of what you may hear
to the contrary the Board of Trustees
is trying to build a new high school
building for Marion. They have
taken the only road open to them to
raise the funds. They are putting it
up to you fairly, openly and an-
a king for your decision. Do you
want a new high school building?

You say, "If that's the best way
to get it? If you know a better
way will you please let the board of
education know?"

If you think this is not the best way
and knock without offering a new
better plan you are not sincere in
your opinion. The Board consider
itself into one thing and that is you
are opposed to a better school or you
are in favor of it. Which?

LETTER FROM ROBERT LEAR

In January the 11th I left home
for Evansville, Ky., where I held a
revival with Brother M. M. Morris,
the pastor of the Methodist church
and from there I went to South

Mary, Ky. for another revival with
Brother D. L. Vane, our pastor
here. These meetings were a blessing
to the people of those towns.

The visible results were 200
converts and 1000 additions to the different churches with
more to follow. I also did a daily
prayer and Bible reading at 120
family altars erected, one upward
leader restored to activity and
died of definite promises for a more
joyous, devoted active Christian life.

At one service there were 100
members of one family, all members
of the Baptist church converted to
claimant renewed, whatever you
choose to call it, there were also
over 100 at the same service.

For five weeks and three days I have
preached once every day, twice and
every day, and a number of times
three times a day, made quite a good
many calls, had personal conference
with men at different times, with
bankers, lawyers, merchants in my
town at the hotel in the streets, in
the home, and on one occasion I
stopped in a shoemaker's shop to see
him, and while there we knelt for
prayer and he was happily converted.

The Lord blessed me spiritually, so
much, physically, and financially
therefore to Him shall be all the
glory. I am at home for one day
then on to Louisville with Rev. F.
S. Morris for another revival. In
his name, ROBERT LEAR.

TAKEN TO LOUISVILLE

Mr. H. V. Scott, wife of Rev.
H. V. Scott, who is pastor of the
Methodist church on
Belleville Street was taken to Louis-
ville Monday to be treated for par-
alytic. Mrs. Scott was first struck

about twelve years ago and has
never fully recovered. She had
another attack during this winter and
has been in a serious condition since.

Her daughter, Mrs. Addison Smith
who is the wife of one of the Louis-
ville and Nashville Railroad officials
had a special private car sent down
here Sunday and in this Mrs. Scott
made the journey to Louisville.

Misses Velma and Rev. Dean of
Downwood were in Marion Monday

MENS BIBLE CLASS NO. 12 ORGANIZES

The Number 12 Bible Class of the
First Baptist Sunday School re-
organized last Sunday and entered the
South Wide Bible Class Contest be-
tween classes in Baptist Sunday
Schools. The contest will cover the
months of March, April and May.

It will be based on five points
teaching and holding constituency;
use of Six-point record system; us-
ing attendance on meetings of class
and the preaching service of the
class; carrying the love of Christ,

etc. No. 12 expects to win
the banner over all other Baptists

in the South. Help us do it.
The other four in the Sunday

Schools are:

The First, The Dutch, The Zionites,
The A. M. E. and the T. E. T. Classes.

The entire class

will enter the contest.

Mr. George Almy, who is on vacation Thursday.

Even to the Tiniest Leak

YOU can't afford to let any of that golden cream escape in the milk. If you know where the leak is you are going to stop it. We can show you how the Primrose stops the tiniest leak.

The Primrose Cream Separator skips clean to the very last drop. It is simplicity itself in operation. The Primrose is the only cream separator which doesn't obstruct the cream outlet in the bowl with a cream screw.

Running quickly over a few of the other kinds — substantial supply can, heavy tinware, cheese skimming bowl, highest grade material, simple device mechanism, all purified by a splash from a dip in your own sanitary frame.

There are several exclusive features which are obvious on a demonstration. We want to explain every one, and show how they all add to your valuable cream to the last valuable drop.

You are in the dairy business to make money. You need the cream skim milk for feeding. Let the Primrose help you. The size of your herd in no way affects the ratio of profit. The Primrose saves on the gallon — you can figure out your profits.

T. H. COCHRAN & CO.
MARION, KENTUCKY

Mr. Lexie Harmon of Repton was buried Saturday.

Mr. Ethel Chandler of Marion attended the funeral Saturday.

Carlsbad Now Karlov Vary

Scene in Karlov Vary.

WHEN IT HAD been a quiet little resort town, it was called Karlov Vary. It has since changed from Carlsbad Austria to Karlov Vary. Charles Shrank, the tourist stick to the German industry, has now been succeeded by the more enterprising of the Bohemian, from which its famous mineral waters come, says a leader of the National Geographic Society.

Though it is located in Bohemia, the Englishman had a taste of affection for and the Americans had a taste for the popular bath, the 17,000 permanent residents who remained in the town after the mass exodus of summer visitors, were essentially German and Karlov Vary remains so according to the press reports.

Because it is said to be the best known this island of Germany's dead chief rule, approached a certain turning point. Proprietors held open discussions of Emperor Franz Joseph's portrait, and of the names of the native sons, who live in towns of the salubrious waters and will be invited to call Karlsbad to an effort.

Discovered by Charles IV.

Traditions tell that the Bohemians preferred to believe that Emperor Charles IV discovered the healing power of the waters that gush through the veins of the country that nature clapped down over a seething cauldron for beneath the surface.

At this east watercourse lake of molten iron and flowing steam a river, the Tepe flows down into a barren valley where the air is softened by beautiful trees and traversed by winding trails. Among these, some physicians locate the health benefits gained by many checks and frequent stops to bathe the springs receive medical aid.

It is just before the Tepe crosses the Eger that the water is collected to cleanse the rest of the town's pools, and furnish the water used for bathing and drinking by those who could afford to go there or who bathed or bathed down by the banks of galloons, for its salt and sand, sand and shipped off all quarters of the globe.

During the second world war, but the guest of any of the numerous hotels would be awakened at 4 o'clock or even earlier and would have to join the procession toward the springs. At a popular one, the Spa, from which flow 100 gallons of water a minute at a temperature of 100 degrees, later he might have to wait 15 or 20 minutes until a well-trimmed maid served him. For his protection large glass covers were erected over many of the springs and from an airplane Christian light rose like a field of conservatories.

But no longer too long among the springs of Carlsbad is to be found history. Here there is a new sort of apothecary. For it was less than 100 years ago last August that Metternich plotted to stamp down the 100,000 free speech tree pits and stumps, used resulting in the removal of waters.

Origin of the "Carlsbad Decree."

There were signs that Metternich had among his men was among the leading point. Austria was threatened. Prince Metternich of Austria arranged to have a representative from Austria present and never mention of the revolution in the federation of German states, and sent them to the Diet to demand a protest of need for military force.

Out of the meeting came the famous "Carlsbad Decree," which may be little known outside of Austria for the world, except that it was signed at Carlsbad. This document stated the policy was to meet to a relentless opposition by the repressive empire of power, control of state regulation of teaching, of literature, and all other fields of life. The decree was created to impose into all offices opposed to the cardinal principle which every German state was pledged to maintain.

Only sixteen years before Metternich conceived this method of political repression, Carlsbad was nearly blown up by the forces beneath the crusted surface. Now, to quote a traveler, "The most dangerous fortress are firmly bottomed down under solid masonry, held together with iron and steel."

Big Devil Fish

Four members of the Miami oyster association recently went on a boating trip to the Bahamas and caught a 3,000-pound devil fish.

Citizen's First Duty

The citizen is the servant of the state, and is bound to use all his armaments for the common good—Bishop Westcott.

MAKE COMPOST HEAP FOR USE IN GARDEN

Start By Laying Down Bed of Fresh Stable Manure

Organic Rubbish, Decayed Vegetables, Dead Vines, Woods and Other Truck May Be Used—Size Plot Necessarily Varies

(Prepared by the United States Department of Agriculture)

Garden waste, decayed vegetables, dried vines, woods and other organic rubbish that collects about the place during a busy summer may be cleaned up and put to work again through the use of a compost heap. Start the heap by laying down a bed of stable manure which has not been burned or heated. The size of the plot will vary with the amount of refuse to be used for ordinary uses. If the bed is made 8 feet long by 6 feet wide and 2 feet deep, it will serve the purpose when the mixture is spread a two-foot layer over it and over it with an other layer of manure. This will cover the pile to a depth of 12 inches. The

Don't Leave Manure in Piles Exposed to Weather Conditions Favorable to Loss By Washing Use It to Make a Compost Heap

pile of leaves until all the waste has been disposed of it will cover the whole in a mass of earth.

It is better to add to the heap frequently as the soil layer may be covered and the new material added to the base of the heap. This is necessary for the sake of time when there is no chance to remove the kitchen waste. In the spring the manure is well mixed with a fork and the manure is ready to be spread on the garden plot. The heating measure will effectively dry out weed seeds present and also break down the aggregate of mass of the materials that have been thrown upon the pile. The process can be continued indefinitely by simply adding enough manure to insure heating. Compost is especially valuable for use in bottoming out.

CLEANING UP INSECT PESTS

Many of Hibernating Species May Be Destroyed in Winter By Cleaning Up Obscure Corners

It is possible to now to reduce the possibility of insect plagues next year if a little effort is expended to widen the desire of insect shelter areas. Around the grounds and gardens under ledges, low bushes, in ledges, corners, and piles of stones, shrubs, weeds or grass. By the time and weather all the insects will have taken full advantage of these cracks and hidden away there for the winter. The Bureau of Entomology, United States Department of Agriculture says that if these spaces are cleaned up and the refuse cut and burned away these hibernating insects will be destroyed and the damage from their pests during the coming spring will be materially lessened.

PROVIDE BATH FOR POULTRY

Chickens Cleanse Themselves by Walking in Soil and Dust Box Should Be Accessible

Chickens will walk on mud other birds do not because they relish the walking in mud. Where found around the house are mud in the chicken houses, and for dusting about the hen houses the birds will walk in the mud. The mud is the best kind of the United States Department of Agriculture for a dust bath. The birds will generally be found in the mud and should be provided for. It can be reduced to sun heat as much of the day as possible.

This will be done in the best kind of mud. The birds will walk in the mud and dust bath and the mud will remain in the mud bath. It is said to be the best kind of mud which may be used.

FARM FOR CENSUS PURPOSES

Is All Land Which Is Farmed by One Person Either by His Own Labor or With Assistance

According to the 1920 census there are 6,000,000 farms in the United States. A farm for census purposes is a tract of land which is directly farmed by one person either by his own labor or with the assistance of members of the household or hired employees. When a landowner has one or more tenants or managers the land operated by each is considered a "farm."

Illinois Central System Passenger Trains Noted for Being on Time

The only record showing the percentage of on time arrivals at destinations of the passenger trains on all the railroads of the United States was made by the United States Railroad Administration for the months of August, September, October and November, 1919. These four months are considered by railway men to be as favorable for railway operation as any period of the year. This record compared with that made by the Illinois Central system passenger trains for the same period, follows:

ALL RAILWAYS

August	81 percent
September	81 percent
October	81 percent
November	82 percent

ILLINOIS CENTRAL SYSTEM

August	95.4 percent
September	96.2 percent
October	95.1 percent
November	96.2 percent

During 1920 the Illinois Central System operated 79,022 passenger trains on more than 6,000 miles of lines in thirteen states of the Mississippi Valley. The percentage of on time arrivals at final destination monthly, was as follows:

January	91.4
February	96.2
March	94.0
April	93.4
May	94.2
June	96.1
July	96.9
August	96.2
September	96.7
October	96.1
November	97.0
December	91.8

Achieving that the avoidance of arriving at destination on time is an extremely important factor in passenger traffic service. The Illinois Central System is very constantly improving the place of service. Maintenance of schedule however is but one feature of the inimitable passenger service offered by the Illinois Central System, every feature of which is distinctly commendable.

The Company of the Illinois Central System represents the highest known standard of the art of railway passenger transportation. The Panama Limited has been designated as the fastest train in the world.

Illinois Central System passenger trains are noted for the safety with which they are operated. More than three and one half billion passengers have been carried since 1900, a passenger riding in a proper train was injured fatally.

Another outstanding feature is the character of service rendered by Illinois Central Trains—the courtesy and attention with which passengers are served in which we take great pride.

In view of our obligation to the public we are making every effort to maintain with honor, skill and economy of management to render a service that will not only please our patrons but will justify them in continuing it to their friends and acquaintances.

In its passenger service, as in all other departments of its organization, the Illinois Central System seeks the cooperation and confidence of its patrons.

Passenger traffic officials and managers are invited.

C. H. MARKHAM
President Illinois Central System

BIRTHDAY SURPRISE

James Githrie Sullenger, son of Mr. and Mrs. G. W. Sullenger, delightfully surprised Sunday to Midway dinner at the home of friend. He was 29 years old February 1, son James Arnold, was one year old February 7, and the dinner was given on the tenth for both boys.

At noon there was spread before a long table full of every thing to eat, which all seemed to taste the most. Mr. Jim Talor played the music with his piano.

Those present were Mr. and Mrs. Doss, Mr. and Mrs. D. E. W. Mr. and Mrs. Carl Ladd, Mrs. Ladd, Mrs. Nellie May, Mr. Mrs. J. Talor and sons, Mr. A. Martin, Mr. Charles and Mrs. Martin, Mr. and Mrs. D. Moore, Baby, Mr. Alfred Ladd, Mr. D. Young and Mr. and Mrs. Ladd and Baby.

BEANWORLD

and Mrs. P. C. Lewis, Mr. and Mrs. D. Ladd and son Baby, sons of Mr. and Mrs. A. Ladd, Sunday.

Alvin Walker was the guest of Mr. and Mrs. G. W. Sullenger.

Mr. Almon Walker visited Mr. and Mrs. G. W. Sullenger.

Henry Baldwin came from out west with Mr. T. L. Walker.

Louise Talor visited Mr. and Mrs. G. W. Sullenger.

H. B. Tracy and family, Robert Thompson and H. Clegg were the guests of T. L. Walker and family, Sunday.

T. L. Walker and family, Mr. and Mrs. S. M. Snoddy.

MIDWAY.

Mr. Lorrie Sigler of Marion visiting her mother, Mrs. Martha Ladd.

Miss Virgil Matthew of Marion who has been visiting her brother the past week is visiting in Marion this week.

Miss Stella Sigler visited Mr. Veda Hill of Marion Friday.

Mr. and Mrs. Gardin Woodall and children visited Wm. James and wife Wednesday.

Mr. Narr Loyd is reported no longer.

A little girl of T. L. Talor was very recently born Friday.

Doris Matthews, wife and children of C. L. Hill and family of Marion Saturday night and Sunday.

Mr. T. B. Parr, wife and daughter late attended lunch at Pleasant Hill, Sunday.

Miss Leah Hill of Marion visited friends, Mr. Matthews, Wellers and others, Sunday.

Elmer and family visited friends the week end.

Miss Lorrie Sigler visited Mrs. Mary Walker Monday.

BELMONT

Mr. and Mrs. Ladd made a

short visit to the city this week.

Mr. Henry Brown spent one night last week with Garrett Boyd.

Miss Edna Clark was called to the bedside of her mother, Mr. John Ladd, of Ladd's Grove.

Mr. T. L. Walker and wife passed through here enroute to the home of Tom Alder.

Mr. Henry Brown spent Sunday with his wife and family.

MARION SCHOOL**Bond Issue Bulletin**

Election, Saturday, March 5th, 1921

WHAT THE OLD BOND ISSUE IS

About four years ago Marion voted on and passed a \$10,000 bond issue. These bonds were to be sold and the proceeds used in erecting a new high building and enlarging the present school. A total of these bonds were issued and sold and \$2000 of the money used in taking up old bonds and the remainder in acquiring more school property. It was expected that the remaining funds were to be used in building the new building, but owing to the high price of building material this could not be done, so the \$2000 have never been used.

Since the voting of the bonds then a 15c tax has been levied to retire the bonds or to redeem these bonds. This tax has paid since the issue and will continue to pay until these bonds have been retired or redeemed.

The \$7,000 not being sufficient to start a building it was decided that they be not used, but that a new issue be made out to build a school.

If this new issue is voted the \$7,000 voted some years ago will be used, and you will still pay the 15c rate as you are still paying it.

BOARD OF EDUCATION STATEMENT

The Board of Education state that the success or failure of the Bond Issue will in no way affect the tax rate in Marion for the year.

ARE YOU HAVING EXCUSES?

If you have a REAL reason for voting against the bond issue you might be excused. But there is not a REAL REASON.

If you are insisting for EXCUSES you can find plenty of them. You do not have to hide behind a REAL REASON but EXCUSES are made to hide behind.

The question of TAX RAISE is not a reason, merely an EXCUSE.

THE FACT ABOUT THE BOND ISSUE AND YOUR TAX RATE

Will the voting of the \$20,000 in bonds raise the tax rate in Marion? This question has been asked several times during the past week. Some have gotten the impression that it will while others understand that it WILL NOT. Why it will not be answered in the following by the County Judge, which may be read on any of the sign boards in Marion. Read the Fourth Paragraph of the ball and you will find these words:

"Whereas, it (further) appearing that the present 15 cent tax levy in said district for school bonds is deemed sufficient, annually levied, to redeem the proposed bond issue as they mature, and also the outstanding \$4,000 bonds as they mature, or to provide for the accumulation of a sinking fund to retire them at maturity."

This clause is very plain and should not be at all misleading. It plainly says that the "PRESENT 15c TAX LEVY" is "SUFFICIENT" that there will be no extra levy for bonding purposes above that which you paid this fiscal year and many years before this.

A Lower Price on 130 Retired Popular

Columbia Records

For a Limited Time Only

Dance, Song and Comic Selections

These are all standard Columbia Records. All made within the last eighteen months. Now retired to keep the Columbia Record Catalogue down in size. Including such artists as Al Jolson, Van and Schenck, Harry Fox, Guido Deiro, Paul Biese Trio, Ted Lewis Jazz Band, Art Hickman's Orchestra, Henry Burr, Campbell and Burr, Peerless Quartette, Sterling Trio, etc. Never before have such records been sold by Columbia dealers at so low a price. The list given below is typical of the wide range of selection.

JUST A FEW OF THE 130 SPLENDID NUMBERS
